General:
- GCS has limited applicability (especially in a child below 36 months of age) where verbal performance of a healthy child would be expected to be poor

Eye responses:
4. spontaneous
3. to speech
2. to pain
1. none

Verbal responses:
5. infant coos or babbles (normal activity)
4. infant is irritable or cries continually
3. infant cries to pain
2. infant moans to pain
1. no verbal response

Motor responses:
6. infant moves spontaneously or purposefully
5. infant withdraws from touch
4. infant withdraws from pain
3. abnormal flexion to pain
2. extension to pain
1. no motor response

Interpretation:
- Severe, GCS 3-8
- Moderate GCS 9-12
- Minor GCS 13-15
